

# Luciano Ojeda

## Fullstack Developer

✉ lucianoojeda36@gmail.com

☎ +5493442559765 📍 Entre Rios, Argentina

🔗 My Portfolio 🐙 GitHub 🔗 LinkedIn

### Education

#### Full Stack Developer, Henry ✉

03/2021 – 06/2021 | Buenos Aires, Argentina  
BootCamp with 800hs of programming

#### Civil Engineer, UTN ✉

03/2009 – 08/2018  
Areas of concern: Construction, Structural Calculations, Architectonic Design, Road and Hydraulic

### Tech Stack

- **Programming Languages:** JavaScript, TypeScript, Dart, Python, Java, SQL
- **Frontend Development:** HTML, CSS (Less, Sass), React, React Native, Flutter, Next.js, Styled Components, Bootstrap, Material UI, Ant Design
- **Backend Development:** Node.js, Express, GraphQL, NestJS, Sequelize, Mongoose, TypeORM, Spring Boot, Django, Flask, Serverless
- **Databases:** PostgreSQL, MySQL, SQL Server, MongoDB, Firebase
- **Cloud & DevOps:** AWS (EC2, RDS, DynamoDB, ElastiCache, S3, Lambda, Amplify), Azure (Authentication), Firebase, Docker, Heroku, Fly.io ✉, Vercel, Netlify, CI/CD (GitLab, GitHub Actions, Jenkins)
- **Testing:** Cypress, Jest
- **Web Scraping:** Puppeteer
- **Methodologies:** Agile (Scrum)
- **Version Control & Collaboration:** Git, Jira

### Soft Skills

- Time Management and Project Prioritization
- Teamwork and Cross-Functional Collaboration
- Excellent Communication
- Adaptability and Quick Learning
- Problem-Solving and Analytical Thinking
- Creativity and Innovation
- Responsibility

### Profile

Full Stack Developer and Civil Engineer. Passionate about algorithms and data structures, problem solving and optimization. I'm always looking for new challenges. my motto is "learning by doing"

### Professional Experience

#### Software Engineer, Blue Alba

09/2022 – present | New York, USA

- **Full Stack Development:** Contributed to the entire software development lifecycle for financial applications.
- **Frontend Development:** Built user interfaces using React and Styled Components, ensuring a consistent and maintainable visual experience.
- **Backend Development:** Developed and optimized backend services with TypeScript, GraphQL, NestJS, Node.js, and Express.
- **Data Mocking:** Utilized mock data for development and testing.
- **Cross-functional Collaboration:** Collaborated with design, product, and QA teams to enhance features and improve user experience.
- **Continuous Improvement:** Applied best practices and performance optimizations.
- **Technological Innovation:** Researched and implemented new technologies to streamline development processes.
- **Containerization:** Used Docker for deployment and environment management.

#### Front end Developer, VFG

10/2021 – 09/2022 | Montevideo, Uruguay

- **Mobile Application Development:** Developed and maintained mobile apps with React Native.
- **Real Estate Applications:** Designed features for property listings, search functionalities, and user interactions.
- **User Experience:** Ensured responsive and intuitive interfaces.
- **Feature Integration:** Collaborated with teams to integrate new features and address user feedback.
- **Code Quality and Optimization:** Enhanced application efficiency and reliability.
- **Project Coordination:** Worked with product managers, designers, and developers to meet deadlines.

## Additional Experience

## Customer service

01/2009 – 09/2021

- Provided personalized attention to clients of all ages, enhancing customer satisfaction and loyalty.
- Trained and supervised new employees, contributing to team development and performance.
- Managed inventory, including maintenance, storage, and ordering.

## Technical Office LP

06/2018 – 12/2018 |

## Concepcion Del Uruguay, Argentina

Assisted with various technical tasks related to civil engineering projects, including documentation and project support.

## Caseros Township Technical Office

01/2015 – 01/2016

Contributed to municipal technical office tasks, supporting local infrastructure projects and administrative functions.

## Web Application Design and Development,

*Freelance*

01/2019 – 09/2022 |

Concepcion del Uruguay, Argentina

- **Inventory Management System** (09/2019 – 12/2019) Developed an inventory management system for small businesses using React, Node.js, Express, MongoDB and Bootstrap. The system allowed users to track stock levels, manage product categories, and generate reports for inventory insights.
- **E-commerce Restaurant** (02/2020 – 05/2020) Developed a local food e-commerce app using React, Redux, Hooks, Material-UI, Node.js, Express, Sequelize, PostgreSQL, Firebase.
- **Product Price Manager** (04/2020 – 07/2020) Created an app to manage product prices by scraping CSV files using TypeScript, Node.js, Express, React, Puppeteer, ExcelJS.
- **E-commerce Party House** (07/2022 – 09/2022) Building an app to manage a party house, including a server for scraping data from various providers.
